September 2, 2008 Larry page and Serger brin Version 148 Purpose: Built to make the internet as fast as smooth, and stable as possible. History:2008 Google co-founders larry page and sergey brin secretly hire developers to build a letter browser.	January 7, 2003 Steve Jobs Version 26.5 Purpose: Built to be ultimate energy-saving browser for apple devices. History:2003 Before safari, mac computers came with Microsoft internet explorer as their default browsers.	January 20, 2016 Brendan eich and Brian bondy Version 1.90 Purpose: Built for privacy and speed, automatically blocking ads, trackers. History: 2015-2016 they created brave to fight back against internet tracking and intrusive online ads.	July 15, 2015 Developer Version 147 / 148 Purpose: Built to be the default all in one browser for windows. History: 2015, for decades Microsoft default browser was the infamous internet explorer because it had became slow and heavily dislike.

As a student this browsers make my daily life more entertained because I can browse easily and shop through chrome. I also love to use it to communicate with others through websites or web pages. Using browsers make me more intelligent and more active to what's happening or what's the new update on something that important.

MICHAEL JAMSEN B.
